18	1-May	3	Rest or Cross	3	Rest or Cross	2	Rest	Flying Pig	21.1

**General Advice**

**Long Runs:** Saturday mornings will be our long runs. Our long runs get progressively longer; however, we drop back every so often. Do not skip your long run on Saturdays. This will be key to finishing. Run slower on these runs. We recommend about 45 seconds slower than marathon pace.

**Hill Training:** Hill repeats make you stronger and faster.

**Interval Training:** This will help increase your aerobic capacity and overall speed.

**Heart Mini 15K:** This should be run at Marathon race pace.

Example: If you plan to run your 1/2 marathon in 2:15; this equals a 10:18 pace. Run this race at a 10:18 pace.

**Cross Training:** We recommend that you do some aerobic activity that is less impactful to the body; such as cycling and swimming.

We also recommend that you use this time to do some core work.
